

Challenges of the digitalisation on the Maltese Banking Industry

11th of May 2017

Hilton Hotel Portomaso Malta Theatre

CONFERENCE GOAL

2017 is a time of opportunities and challenges. As the world progresses, Banks and Financial Service providers are faced with new digital changes. This event spans a wide scope of technologies focusing on digitalisation in the banking industry.

PARTICIPANTS

This conference brings together international speakers and leading decision makers from the Maltese Banking and Financial industry.

CPB SOFTWARE

CPB SOFTWARE AG is a successful group of companies with subsidiaries in Austria, Germany, Switzerland and Malta.

Its more than 200 employees are devoted to the development of high-quality software products for banks and public authorities, the technical operation of these applications in professional data centres, and the execution of business processes (from master data management to complete customer management) on behalf of clients. Business-as-a-service solutions give companies the freedom to fully focus on their core business areas.

Professional expertise, an incomparable commitment to the quality of our services, a high level of innovation, and many years of experience form the basis for the many successfully completed projects and what are now nearly 1,000 highly satisfied customers from all across Europe.

Croissants & Danish Pastries

Speeches | Presentations | Lectures

2:30 pm **1st Panel**
Welcome and introduction CPB
Peter Thomayer,
Chairman of the Board

2:50 pm **2nd Panel**
In times of rapid change

Exciting times – Digitalisation is forcing banks to effect their most extensive transformation. Having digital banking in place is of vital importance, determining the crucial life of the bank itself. How does CPB Software deal with these opportunities in order to satisfy the needs and requirements of banks and their customers?

Reto Pazderka,
Director CPB SOFTWARE Austria

3:25 pm **3rd Panel**
The changing world of wealth advisory - from face to face, via Hybrid to Robo advisory.

Synopsis: regulatory requirement, changing cost models, shrinking margins and changing customer attitudes require wealth management organisations to rethink their advisory approaches in servicing their clients. Learn more about these challenges and how a Hybrid Advisory approach could change your business

Jos Martens,
Business Development Director
Objectway
